- This presentation contains forward-looking statements and projections about our strategy, products and services, shareholder returns, and our future results, performance
 or achievements, financial and otherwise. These statements and projections reflect management's current expectations, estimates and assumptions based on the
 information currently available to us and are not guarantees of future performance.
- Actual results may differ materially from these statements for a variety of reasons, including, without limitation, our ability to keep pace with the rapid industry, technological and market trends and changes in the markets in which we operate; our ability to execute our evolved cloud strategy and introduce and gain market acceptance for our products and services; our ability to maintain our customer, partner, supplier and contract manufacturer relationships on favorable terms and conditions; global political, macroeconomic and market conditions, including inflation, rising interest rates, monetary policy shifts, recession risks, and foreign exchange volatility and the resulting impact on demand for our products; the impact due to new or ongoing armed conflicts and any sanctions posed in response; adoption or changes to laws, regulations standards or policies affecting our operations, products, services, the storage industry, or Al usage; material cybersecurity and other security breaches; the impact of supply chain disruptions on our business operations, financial performance and results of operations; changes in U.S. government spending; changes in overall technology spending by our customers; revenue seasonality; changes in laws or regulations, including those relating to privacy, data protection and information security; the timing of orders and their fulfilment; and our ability to manage our gross profit margins. These and other equally important factors that may affect our future results are described in reports and documents we file from time to time with the SEC, including the factors described under the section titled "Risk Factors" in our most recent annual report on Form 10-K and quarterly report on Form 10-Q, each available at <u>www.sec.gov</u>. The forward-looking statements made in these presentations are being made as of the time and date of the live presentations may not contain current or accurate information.
